

Conference Synopsi

What do you think about mission?

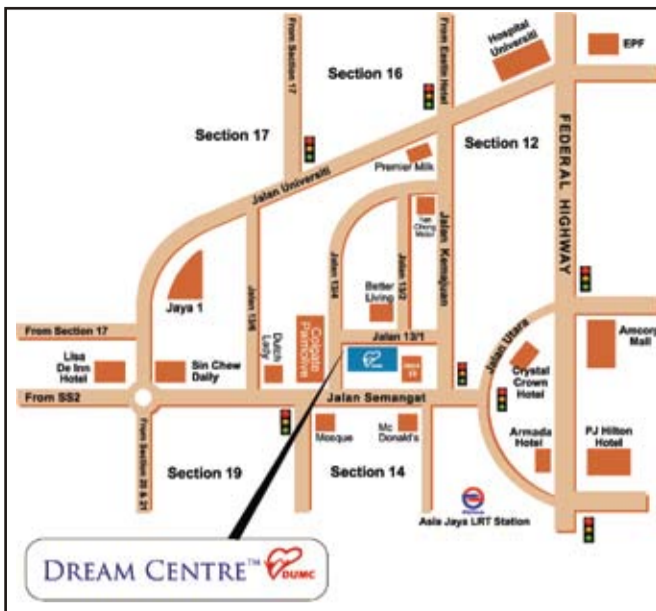

Is mission just one part of church life, where some serve in youth work, others in the worship team and others do mission?

If it is, then the Bible will have *some* things to say about mission but it won't be important for everyone.

But what if the *whole* story of the Bible is God's story of His mission, designed to tell us what He is doing and how we can be part of it?

In that case, mission is not something that only happens far away for a few. It's about you and me and everyday life! Come and learn about how you too can be part of God's mission.

Missions Conference

Dream Centre • 17 - 19 April 2009
(Friday - Sunday)

**GROWING AS
WORLD CHRISTIANS**

Integrating Mission Zeal Into Daily Life

**Dr Paul
Bendor-Samuel**

Dr Bendor-Samuel was brought up in Brazil and West Africa where his parents worked with Wycliffe Bible Translators. He went to medical school in Cardiff, Wales (1978) where he met his wife, Liz. They both trained as Family Doctors and then spent 2 years at Bible College in theological and missiological training.

In 1990 they moved to North Africa where they served for 12 years in a Christian Development Agency. Initially involved in primary health, Paul spent 7 years as General Director until 2002. During this period they not only saw the range of roles and ministries of the agency broaden but also experienced the thrill of seeing God at work developing a national church.

In 2003, Dr Paul Bendor-Samuel was appointed International Director to Interserve, currently based in Kuala Lumpur where Interserve has its international office. Dr Bendor-Samuel is married to Liz and have four sons Tom, age 20, Owen, age 18, Nicholas, age 15 and Hugh age 13.

Interserve is an International Fellowship of Christians committed to serving the people of Asia and the Arab World through the placement of suitably qualified people in a wide variety of positions. There are now over 800 Interserve Mission Partners from around 20 countries around the world working in over 35 countries of Asia and the Arab World.
